EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with David Hardy on January 5, 2005.

The application has been amended as follows:

In the specification at Page 7 please insert Applicant's paragraph of the amendment of December 5, 2003, which reads "[0022] Figs. 7-12 are plan views of the exemplary sputtering system target of Fig. 5 according to the present invention." after Applicant's paragraph "[0021]" in the Brief Description of the Drawings.

Also change on pages 7-9 "[0022]", "[0023]", "[0024]", "[0025]", "[0026]" to "[0023]", "[0024]", "[0025]", "[0026]", "[0027]", respectively, in order to have consecutively numbered paragraph indicators.

The following is an examiner's statement of reasons for allowance:

Claims 1-16 are allowable over the prior art of record because the prior art of record does teach the claimed sputtering system including a plurality of electromagnets formed having different geometrical group cell patterns on the fixed plate, wherein at least two of the geometrical group cell patterns have electromagnets of different geometrical shape, respectively.

The closest prior art of record to Potter U.S. Pat. 5,262,030 teach the plurality of electromagnets and the electromagnets being selectively activated to form the different group cell patterns. Potter does not teach having the electromagnets of different geometrical shapes and does not teach the combination of the electromagnets having different geometrical group cell patterns wherein at least two of the geometrical group cell patterns have electromagnets of different geometrical shapes, respectively.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Rodney G. McDonald whose telephone number is 571-272-1340. The examiner can normally be reached on M- Th with Every other Friday off.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Nam X. Nguyen can be reached on 571-272-1342. The fax phone number for the organization where this application or proceeding is assigned is 703-872-9306.
